We this One
doesn't
have easy
picture book
reading

Story telling screen - as they read, words change color like karaoke

↑
arrows for changing page

(picture takes up almost whole screen)
& 10 pixel black fone

TEXT HERE

centered at halfway across, in up

↑ translucent black box, rounded edges

↑ unlocks only after read correctly

It would be so cool to animate the drawing as the kid talks

Story question prompter

& just adds a popup in front of book

(Question here) ?

chat bot chat box

§ ← microphone button

appears after
1 chat response from model.
Allows to continue
reading

th
◁)) (( ))

when you pronounce

correctly you get confetti

& it changes the letters /phoneme

letter changes color whenever student says it correctly

letter changes color whenever (navy → white)

exit

Simple sentence screen

add 5 a star at the top when you read a full sentence + confetti
